

## Conflict of Interest Policy

*The Academy has adopted the following policy to guide its activities on behalf of the actuarial profession and the public:*

**T**HE FUNDAMENTAL PURPOSES of the Academy require it to maintain a high level of professional objectivity and independence from any specific interests of the employers of its members. Therefore, members who work on the Academy's behalf must carefully consider and address any situation that may arise with respect to the members' activity, or the activity of any member working with them, which may call into question their professional objectivity.

Members should comply with the Code of Professional Conduct whenever they provide services to the Academy. Members should familiarize themselves with Precept 7 of the

Code, which provides specific guidance on dealing with conflicts of interest. Any actual or potential conflict, real or apparent, with this objective must be dealt with using the guidance provided in Precept 7, treating Academy work like "Actuarial Services" as defined in the Code of Professional Conduct. Disclosures required under Precept 7 should be made to the member supervising the activity in question.

Any question or concern about the possibility of a conflict of interest with respect to any work a member may perform on behalf of the Academy should be addressed to the member supervising the activity or to the Academy's general counsel.
