

AMERICAN ACADEMY *of* ACTUARIES

SPEAKERS

CORI E. UCCELLO is the Academy's Senior Health Fellow. In this position, she serves as the actuarial profession's chief public policy liaison on health issues. Ms. Uccello is a member of both the Academy and the Society of Actuaries. She is Vice Chair of the Academy's Uninsured/Underinsured Work Group and also serves on the Committee on Social Insurance. Prior to joining the Academy, Ms. Uccello was a Senior Research Associate at the Urban Institute. While there, she authored numerous publications on health and retirement security.

Ms. Uccello received a bachelor's degree in math and biology from Boston College and a master's of public policy from Georgetown University.

CECIL D. BYKERK is the executive vice president and chief actuary of Corporate Actuarial and Strategic Planning Operations with the Mutual of Omaha Companies. His duties involve actuarial oversight, planning and acquisitions. In addition, he is responsible for asset/liability management, which is part of corporate risk management. Bykerk joined Mutual of Omaha in 1979 and was named executive vice president and chief actuary of the Actuarial Operation in 1991 transitioning to his current position in 1998.

Mr. Bykerk received his bachelor's degree from the University of Denver in 1966, and his master's degree from the University of Nebraska - Lincoln in 1968.

Mr. Bykerk is a Fellow of the Society of Actuaries and a member of the American Academy of Actuaries and is very active within both organizations. He is also a member of the National Association of Health Underwriters and is the immediate past chairperson of The Actuarial Foundation. He was elected to the board of the National Association of State Comprehensive Health Insurance Plans (NASCHIP) in 1996, serving as its chairperson during 1997-1998. He currently serves as Chair of the International Actuarial Association's Education Committee.

Recently, Mr. Bykerk was named Chair of the Insurance Subcommittee of the National Conference of State Legislatures Blue Ribbon Panel on Genetic Technologies. He also serves on the Advisory Committee to the Genetics Advocacy Project as well as serving as an ad hoc representative to the Access Working Group of the Secretary's (HHS) Advisory Committee on Genetics Testing.

ARNOLD A. DICKE is a Fellow of the Society of Actuaries, in which organization he has held several leadership positions including Vice President, 1993-1995, and Board Member, 1988-1991 and 1993-1995. For ten years, he chaired the Society's Committee on Actuarial Principles. Mr. Dicke is also a Member of the American Academy of Actuaries where he was Vice President for the Life Practice Council from 1995 to 1997 and as Chair of the Committee on Federal Life Insurance Issues from 1997 to 2000.

Mr. Dicke received his A.B. in Physics from Harvard College and his M.A. in Mathematical Physics from Princeton University. He attended the Advanced Management Program at Harvard Business School. His publications include:

“Comparison of methods for fair-valuing life insurance liabilities,” in Irwin T. Vanderhoof and Edward I. Altman, editors, The Fair Value of Life Insurance Liabilities (Boston, Dordrecht and London: Kluwer Academic Publishers, 1998);

“The Preferred Underwriting Revolution: Impact on the Life Insurance Market,” The Rosen-Huebner-McCahan Lecture, 1997 (Philadelphia: S.S. Huebner Foundation for Insurance Education and Department of Insurance and Risk Management, The Wharton School of the University of Pennsylvania, 1997);

“Comparison of Methods for Fair Valuing Life Insurance Liabilities,” in Edward I. Altman and Irwin T. Vanderhoof, editors, The Strategic Dynamics of the Insurance Industry: Asset/Liability Management Issues (New York: Irwin, 1996);

“Genetic Risk and Voluntary Insurance,” Contingencies, November-December 1996;

“Principles Regarding Provisions for Life Risks,” Society of Actuaries Committee on Actuarial Principles, Transactions of the Society of Actuaries (XLVII), 1995;

“The Actuary of the future: A contrarian’s view,” The Actuary 29(5), May 1995;

“Fair-Valuing of Insurance Liabilities – Actuarial Approaches,” The Financial Reporter (20), June, 1993;

“Principles of Actuarial Science,” Society of Actuaries Committee on Actuarial Principles, Transactions of the Society of Actuaries (XLIV), 1992;

“A New Study of Life Insurance Company Expenses,” with Andrew S. Cherkas, The Actuary 24(4), April 1990;

“Generating Interest for Whole Life,” Best’s Review, February 1985.
