

Comment #107—10/29/2020—10:36 p.m.

I am writing in support of the three options proposed by Steve Armstrong in his letter to AAA for Diversity, Equity and Inclusion to be included in continuing education for our profession. Actuaries involvement in underwriting strategies and rating plans puts us at the center of the conversation for whether rates are excessive, inadequate, or unfairly discriminatory. Continuing to educate ourselves on the history of bias and discrimination are critical to avoid decisions that may reflect poorly on our profession.
