Hello,

I recently came across the letter from CAS President Steven Armstrong regarding his proposal for including DE&I as a Professionalism topic. I want to express my support of his recommendation to create a separate Anti-Bias (or DE&I) category for required CE credits, and as a specific topic within the AAA USQS. I believe this will help make it more clear to members that diversity, equity, and inclusion are heavily valued within our society and community. I would also especially like to see an anti-bias training included in the Course on Professionalism. These types of trainings are vital to our success as an organization. I believe that DE&I education is crucial to upholding the integrity and reputation of the actuarial profession.

Thank you,

Brittni Gunnoe, ACAS, MAAA
